Samantar II / समान्तर २ /

s a m a n t a r I I

“As above so, so below” is an axiom that states correspondence between the laws and phenomena of the various planes of Being.

We build further on our recent exploration that takes us on a journey that moves in and out of our self and its relationship to the world around us. The responses, the reactions, the relationship of one thing to another. “For as above, so below, as within, so without”. It is this cyclic correspondence yet independence that informs our ‘Samantar II’, drawing parallel lines between what has been and what will return again. It is an ode to our techniques that we have so uniquely made our own while enriching our fabric story with the use of khadi.

This collection stays true to our affinity for black and white as a canvas with intricate play of patterns using repetition and symmetry. The pieces are created with our signature geometric elements, inter layered with natural and organic shapes that allow us to play with indigenous silhouettes but in new age translations. A touch of gold has been added to elevate our existing mix of designs.
